

## Resources

Watch this video to see what you need, and the experiment in action:

<https://www.youtube.com/watch?v=k5wmdVhz8E0>

## Method

- 1 Remove the lid from an empty bottle and fill with water
- 2 Add a few drops of yellow food colouring to the water and watch the colour swirl
- 3 After a few seconds, add a few drops of blue food colouring to the water
- 4 Again, watch the blue colouring swirl through the water
- 5 After a few seconds, the yellow and blue colourings will swirl together
- 6 Once this has happened, replace the lid and give the bottle a shake
- 7 The colourings will have now combined to form green!

## Learning Outcomes

- 1 Learners will develop an understanding of...
- 2 Learners will develop basic knowledge of...
- 3 Learners will ...

The Bumbles of Honeywood is a set of books, activities, and merchandise to introduce children to important life skills such as entrepreneurial skills, creativity, teamwork, determination and self-confidence.
